

JetLOC P20W

Ink Jet Printable Matte White OPP Label Stock

Description

2.6 mil oriented polypropylene film with #050 matte water resistant ink jet receptive coating.

Applications

For prime or general purpose labels requiring an ink jet printable film substrate, water resistance and excellent printability. Use in roll fed and sheet fed ink jet printers.

Advantages

Excellent die cutting and stripping characteristics. High shear strength. Cold flow resistant for dry edges on rolls and sheets. Permanent acrylic adhesive offers good initial tack, moderate peel and good ultimate adhesion to a wide variety of plastic, glass, metal and painted surfaces.
