

PFAS COMPLIANCE LETTER

FilmLOC is committed to protect the environment and complies with applicable environmental regulations. In line with this commitment, FilmLOC has implemented value chain due-diligence efforts with its suppliers. We have established material compliance procedures to ensure there is no use of Per- and polyfluoroalkyl Substance (PFAS) within our products.

Based on our production knowledge and declarations collected from the upstream supply chain, we hereby declare that our products do not contain any PFAS chemicals, such as perfluorooctanoic acid (PFOA), Perfluorooctane sulphonic acid (PFOS), or Long-chain perfluorocarboxylic acids (LC-PFCAs) as described by the U.S. Environmental Protection Agency.

We understand that PFASs are persistent and bio-accumulative in the environment and generate adverse effects on human health. Therefore, FilmLOC has taken proactive measures to ensure our products comply with ongoing legislative efforts in PFAS. We are committed to continuously monitoring and improving our material compliance process to ensure our products are, and remain, compliant.

Shirl Handly
